# *Aluminium Greenhouse Collection*

# Aluminium Greenhouse Collection

When you own our AGL Greenhouse a whole new world of gardening possibilities opens up to you throughout the year.

Whether you want to grow flowers, fruit, vegetables or exotics you can create that special climate and enjoy hours and hours of pleasure as you watch your plants come to maturity.

The AGL range is now wider than ever and offers a solution for the needs of every gardener and every garden.

You can choose from traditional free standing, Lean-to and hexagonal designs, plus innovative wall gardens and cold frames specially designed for smaller spaces, many models also offer a choice of horticultural, toughened glass or shatter proof polycarbonate.

Finally AGL's sturdy, aluminium construction offers a long-life with low maintenance.

## Glazing Options

### Horticultural Glass

The traditional glazing method. Allows sunlight in to nurture young plants

### Small Pane Toughened Glass

Allows sunlight to nurture plants in the same way as Horticultural Glass, but gives added safety.

### Polycarbonate Glass

Twin wall construction retains heat. Diffuses sunlight and reduces the risk of scorching plants. Virtually unbreakable.
